Program description: Achieve Highpoints, an approved Supplemental Educational Services provider in over 15 states is a state curriculum-driven, web-based math tutoring platform for students in grades 3-12 that helps students master mathematics skills from home at their own pace. As an online provider, we are able to cater to students without the usual time and transportation barriers. Students who use our platform via the laptop we provide for the duration of the program achieve an average 15 point increase in their pre and post-test results; 83% of users of just 10+ hours reported that their math grades went up in school. Numerous students have gone from F's and D's to B's with Achieve Highpoints.

Additional student populations served:

Description of tutor qualifications: Nearly 90% of the tutoring in our program occurs via our math education platform (computer program). We do provide virtual online tutors who are available as needed for our students to gain a deeper understanding of math concepts. Our Virtual Tutors have a minimum of a bachelor's degree in mathematics, engineering, science or other math-intensive fields.

Minimum requirements: This provider must have a minimum of **500** students enrolled in a **district** before they are willing to serve the district.
: This provider does not have a minimum number of students that must be enrolled in a school before they are willing to serve the school.
