## WHAT DO STUDENTS WANT? RESULTS FROM THE WGCPA SCHOLAR CLIMATE SURVEY

Last week, students complete a student climate survey that measures issues they find that are important, and behaviors of scholars. Although we adults think we know what students are concerned about, it is good to know what their perspectives are on major issues. 60% of scholars completed the survey. Here are the results:

### Class of 2015 Concerns:

- Career/College Choice
- Achievement in school
- Bullying
- Depression
- Abuse
- Stress
- Drinking/Drug Use
- Peer Pressure

### Class of 2014 Concerns:

- Career/College Choice
- Depression
- Abuse
- Stress
- Drinking/Drug Use
- Romantic Relationships
- Family Relationships
- Self-image

### Scholar Behaviors

#### Almost Always/Frequently Believe

- Classes prepare me for success
- Teachers Go out of their way
- New students feel accepted
- Students pick on others

#### Almost Never Believe or See

- Students respecting property of others or the school
- Resolving issues without fighting
- Students intervening for others

What do these results mean? As a school we will tackle the issues of concern of our students through seminar courses and town hall. For parents and family members, we ask that you discuss these issues with your students. We can all work together to improve the learning environment of our scholars
