Hello West Gary Families,

Welcome to October! Today I witnessed scholars making smart choices in classrooms. They were excited, ready to learn, and truly taking advantage of every minute they had to learn. Every day that I speak with scholars and observe them in classrooms, I am reminded of the extreme potential of all of our students as well as of the commitment and dedication of our staff and families. Our students are successful because of you. Thank you.

Have a great week!

We prepare our students for college through a rigorous arts-infused program.

Math Night was Magnificent!

Yearly we have math night. It is an opportunity for students and families to come and meet with teachers and to learn new and fun math concepts and games. This year our students and families learned a lot! The picture to the right shows some of our Lower Academy Scholars playing a math memory game. Be sure to ask your scholar what fun game their teacher created for their class for math night!
